2 Flight Lessons
with a CFI

Full Payment Due By **December 20, 2020**

A group order will be placed to take advantage of this price. Supplies expected to arrive for beginning of class

Why Am I Being Asked to Pay This?

In years past many teenagers have not returned the loaners and we can not continue to keep repurchasing them. This will also allow the young aviators to have all the supplies they need as they learn to become Private Pilots. If they enter the program at age 13 these supplies will easily take them to age 17. That works out to just \$50/year.

***Limited Scholarships Available**
